The Headteacher
Meltham CE (C) Primary School

28th September 2018

Dear Headteacher

YOUR SCHOOL SWIMMING STATISTICS

Please find below your swimming statistics for 2017/18. For your information I have also included the previous year's statistics, the LA average and National average.

Results 2017/18	Results 2016/17	0% Difference 2016/17 + or -	Kirklees Average	National Average
75.4%	98.3%	-22.9%	85%	52.0%

It is advisable that you and your PE Co-ordinator have this information to hand as part of any conversation with Ofsted regarding Sports Premium as our (Kirklees) statistics are far superior to the National average. This is as a result of partnership working of the swimming teachers and your staff being pro-active and supportive in swimming lessons, so please pass on my thanks.

Finally can I remind you of my offer to provide free-of-charge 'intervention' for weak/non-swimmers in order to further boost our/your excellent results.

If your staff, along with swimming teachers, can identify those pupils 'at risk' of not achieving the 25 metre expectation in 2018, we will try to accommodate small groups in extra sessions with small teacher/pupil ratios to give an intensive catch-up opportunity. If this got six of your non-swimmers swimming it would obviously have a massive impact on:

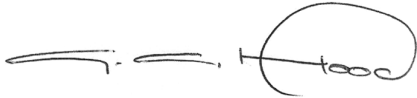

- on their inclusion into 'healthy active lifestyles'
- improve your school's swimming stats
- prove impact against Sports Premium

Cont/...

Remember whilst I can provide the teacher and pool time, I cannot provide the transport, so a people carrier taxi would be needed but this is an extremely low cost for 6-8 weeks from Sports Premium funding and would have significant impact.

Please be mindful of the note on the email that I will be away from work for the rest of this term so please direct any queries regarding pool programming or school swimming service delivery please now contact KAL at contactcentre@kal.org.uk or telephone 01484 271554.

Yours sincerely
